

Community Choice Energy

Our Power, Our Choice

Dear Mayor and City Council,

I would like to be served by an electricity provider that:

- Is locally controlled, accountable, and not for profit
- Delivers more clean energy
- Reinvests customer dollars in local energy projects that create jobs and help lower bills
- Gives us local control over electricity rates

Instead I have SDG&E, a monopoly that doesn't live up to this.

Community Choice Energy does. Approximately 70 California cities have Community Choice. Cities as small as Lancaster and as big as San Francisco are giving their residents, schools, and businesses a choice instead of a monopoly. I would like you to do the same.

Name _____

Organization/Business (if authorized to represent) _____

Address _____

City _____ Zip Code _____

Email _____

Telephone (optional) _____

- I would like to receive updates on Community Choice Energy progress in North County: Yes ___ No ___
- I would like to help collect signatures from my personal network of family and friends: Yes ___ No ___
- I would like to join others in collecting signatures at public places and events: Yes ___ No ___
- If Sierra Club publishes a list of local Community Choice Energy supporters on a website or social media, it is okay to include my name: Yes ___ No ___
